github.com/imsoft

Full-stack engineer, 6+ years shipping web and mobile products end to end. 20+ projects delivered across six industries — SaaS platforms, marketplaces and internal tools — in TypeScript, React/Next.js, Node/NestJS and PostgreSQL.

EXPERIENCE

Full-Stack Engineer — imSoft (software studio, Guadalajara) May 2019 – Present

- Shipped 20+ web and mobile products for clients in logistics, customs, construction, retail, healthcare and education, owning architecture, implementation and support on each.
- Built a customs and logistics operations tool that automated document handling and reporting, removing ~10 hours of manual work per week for the client.
- Launched multi-tenant SaaS platforms on Next.js, NestJS and PostgreSQL with Stripe billing, role-based access, automated test suites and CI/CD.
- Integrated REST and GraphQL APIs across payments, CRM and logistics services; client projects typically delivered ~30% improvements in sales or process throughput.
- Clients: Construcción Inteligente, Ferreacabados Jalisco, Club de Estirpe, Starfilters.

Chief Technology Officer — Holistia (wellness platform) Jul 2024 – Dec 2025

- Defined the technical roadmap and architecture for a booking and wellness platform on Next.js, Supabase and Stripe.
- Led a 5-person development team; set the delivery process, code review standards and release cadence.
- Owned infrastructure decisions for scalability, data security and cost control.

Instructor, IT & Robotics — AWL · Taught programming, robotics and English; designed the curriculum used across groups. Aug 2016 – Feb 2020

PRODUCTS BUILT & LAUNCHED

- Cursumi** — cursumi.com · Course marketplace for LATAM: 5,000 users, instructor dashboards, local-payment checkout, certificates.
- Explora Inmuebles** — explorainmuebles.com · Real-estate portal merging public safety, flood and seismic-risk data into each listing; map-polygon search and agent CRM.
